EXPERIENCE

Interaction Designer • Interaction Design Lead • Photographer

Meta x SCADpro Ray-Ban Meta Experience Design

- Led interaction design for next-generation social experiences on Ray-Ban Meta smart glasses, from ideation through high-fidelity prototypes, synthesizing 5,000+ research data points into an interactive ecosystem.
- Explored 80+ interaction concepts and collaborated with a multidisciplinary team to shape interaction patterns and communicate product vision through iterative design.
- Selected to present the team's design strategy and product vision to stakeholders at Meta headquarters.

Founding Project Manager • Technical Developer

Hack iX

- Co-founded SCAD's first low-code hackathon, coordinating planning, cross-functional collaboration, and participant experience for 60+ students across multiple disciplines.
- Designed the event website and interactive planning platform to support event operations and user engagement.
- Rapidly prototyped an AI-powered application using AI-assisted development workflows.

UX Designer • Final Presentation Lead • Photographer

FINRA x SCADpro Accessibility Guidelines Creation

- Conducted user research, designed interaction flows, and iterated through usability testing.
- Created an accessibility resource promoting inclusive design across digital products.
- Led the final client presentation and communicated key research insights.

UX Designer • Project Manager & Lead

Terra Dotta x SCADpro Website Redesign

- Led a multidisciplinary team through a human-centered redesign of Terra Dotta's student experience.
- Coordinated client communication, project planning, and design collaboration.
- Guided teammates through UX methods from research to prototyping.

UX Designer • Project Manager & Lead

Deloitte x SCADpro Human-Centered Design Collaboration

- Led the creation of journey mapping and persona resources to support Human-Centered Design.
- Coordinated cross-functional collaboration and served as the primary client liaison.
- Developed practical design resources informed by user-centered research.
